

EUREKA!!

"I Have Found It"---A Starch Preparation

No More Cracked Collars or Split Pleats

After months of experimenting and rigid testing I have perfected a vegetable compound which, when used in proper proportion with ordinary starch, produces a starch of rubber-like flexibility and velvet smoothness.

"Eureka" is mixed with ordinary starch while being prepared, and is applied by specially designed machines to collars, cuffs and shirt bosoms and pleats. "Eureka" is a VEGETABLE mixture without any ingredients that might injure the finest fabrics.

"Eureka" is Used Exclusively By the Royal Laundry
Give Us a Trial With Our Eureka Process

The Royal Laundry "Eureka" process lengthens the life of collars, cuffs and shirt bosoms and bands, eliminating altogether the cracking, scaling and splitting which is so objectionable. A collar laundered by the Eureka process can be twisted like a shaving, and when released will immediately spring back into original shape, showing no signs of cracking or roughness. We guarantee new collars treated by the Royal Laundry Eureka process to last at least four months.

The machines specially constructed for us applies the starch in such a way as to distribute it equally over the entire surface, and the fabric comes out smooth and pliable and ready for the ironing and finishing processes. There are no "blistered" spots or wrinkles. All rough places are filled in and a kid-like surface and smooth edge is produced that gives a unique result to all work done by the Royal Laundry Eureka process.

This is indeed a wonderful invention, or discovery, and one that gives the Royal Laundry an advantage that means much to all who have their work done by us.

"EUREKA" In Other Laundries

It is the intention of the inventor (Mr. Florsheim) of "Eureka" to manufacture the product in Richmond and later on to market it all over the United States. For the present and until plans are perfected for a wide and general distribution of this wonderful discovery, Eureka will be used EXCLUSIVELY by the Royal Laundry.

NO COURT DRESS FOR AMERICANS

President Wilson Will Insist on Plain Evening Clothes.

MORE SIMPLICITY FOR DIPLOMATS

Kaiser's Coming Court Last One at Which Leishman's Creation of Blue-Black and Gilt Will Be Seen—Few Americans to Be Presented This Year.

(Special Cable to The Times-Dispatch.) Berlin, January 11.—A short, brilliant season of court festivities will open during the coming week, with the coronation of the Kaiser, which is a big reception by the Kaiser to holders of orders, decorations and titles. It will be followed by a big court, attended by members of the diplomatic corps, a court ball, court presentation, the annual chapter of the Order of the Black Eagle, the Kaiser's military drawing room and numerous receptions.

The names of the Americans who will be presented at the court are kept secret at the American embassy, but the number will probably be fewer than in 1912, owing to the completion of the German newspapers. The only ones heretofore mentioned as certain of presentation are Rear-Admiral Chadwick and his wife. It is reported

that Charlemagne Tower, the former American ambassador, and his daughter, will have a season at court, and it is also rumored that the Kaiser will decorate Mr. Tower. It is also expected that Jack Leishman, the son of the ambassador, and his wife will be presented.

The coming court is expected to be the last at which an American ambassador and his staff will appear in official diplomatic uniform, as a report is in general circulation that President-Elect Wilson will insist on American diplomats appearing in plain evening dress. Ambassador Leishman's uniform is less conspicuous than it has often been described. It is of blue-black cloth with gilt stripes, and is something on the style of the British diplomatic corps.

There is much speculation in court and diplomatic circles and in the American colony as to the successor of Ambassador Leishman. The embassy under Mr. Leishman has practically taken little interest in social affairs, and the American colony has depended altogether on Consul-General and Mrs. Thacker.

Progress in Aviation. Germany's progress in aviation is gratifying. This government is seriously considering the establishment of a ministry of the air, and a large fleet of Zeppelin airships for military, naval and commercial purposes is being rapidly built. The company owning the Zeppelin commercial passenger-carrying cruisers this week entered the seventh passenger-carrying mark without having reported injury to a single passenger. There is feverish activity at the Zeppelin works at Friedrichshafen in the matter of building new ships. Three cruisers are to be completed shortly. One which was built for the navy proved so successful that another was ordered immediately. One which has been ordered by Saxony will be the first Saxon military cruiser. The third will go to the passenger Germany Airship Company.

Francis and Florence MacLennan, the leading American stars on the German operatic stage, who have had the principal roles for three years at the Berlin Opera, have signed a contract with the Hamburg Opera for leading tenor and lyric soprano parts.

FRIENDS WORKING FOR M'CARTHY

JOHN J. MCCARTHY.

SOUTHERN DOINGS TOLD IN NUTSHELL

Washington, D. C., January 11.—President Pinley, of the Southern Railway Company, commenting to-day upon the record of cotton mill construction during the calendar year 1912, said:

"The Southeastern States led all other sections of the country in cotton mill development in 1912. There were 37 new mills built in the United States during the year. Of these, 29 were in the Southeastern States. Out of 323,179 new spindles, 177,000, or 54 per cent, were in Southeastern mills, and out of 3,174 new looms, 2,419, or 76 per cent, were in Southeastern mills. These figures refer only to new mills, and take no account of the large additions made during the year to existing plants by which the manufacturing capacity of the section was largely increased. The aggregate increase has been so great as practically to insure the maintenance of the record made by the cotton-producing States in the year ended August 31, 1912, when the mills of the South consumed more cotton than those of all other sections of the United States."

President of Railway Clerks Seeks Collectorship of Port of Richmond.

John J. McCarthy, one of the candidates for Collector of Customs, Port of Richmond, was born in this city, and educated in the Catholic schools here. He is a railroad man, having been for a long time connected with the Chesapeake and Ohio as a clerk, then with the Atlantic Coast Line, and is now in the offices of the Seaboard Air Line in this city. His friends make the claim for him of competency on the ground of his expert knowledge of accounting and transportation.

He has been grand organizer of the Brotherhood of Railway Clerks, and is now president of the local division.

Mr. McCarthy, the youngest of the candidates, has the backing of very many of the younger element of the party in Richmond. His friends are limited only by the number of his acquaintances.

MANY CONVICTS IN CHICAGO.

Responsible, Says Mayor Harrison, for the Prevalence of Crime. Chicago, January 11.—Paroled convicts infest this city, said Mayor Carter Harrison. In a public statement

he denounced the leniency of the courts as responsible for the prevalence of crime. Too great leniency in dealing with criminals, he said, was responsible for many highway robberies.

"This city in December was made the 'dumping ground' for sixty-seven convicts paroled from Illinois penitentiaries," Mr. Harrison said. "Most emphatically I protest against this. I protest also against leniency to men who are caught with pistols in their possession. I was pleased to hear that Judge Sabath a few days ago fined a man \$200, the limit, for carrying a pistol. That should be the penalty in all cases."

Bank is Chartered. Raleigh, N. C., January 11.—The Bank of Goldsboro is chartered by the Secretary of State for a general commercial and savings business. The capital is \$250,000 authorized and \$25,000 subscribed by James Kyle, J. M. Allen, J. M. Edgerton and J. L. Barham.

Cotton Movement. New Orleans, January 11.—The report of the secretary of the New Orleans Cotton Exchange shows that the amount of cotton brought into sight during the first four months of the present season was 3,061,800 bales. The exports were 2,001,106 bales, an increase of 33,207 bales. The takings were 8,700 bales, 1,204,475 bales, an increase of 67,704 bales; by southern spinners, 1,200,000 bales, an increase of 20,500 bales.

GROWERS CAPTURE HANDSOME PRIZES

Frederick County Orchardists Make Fine Showing at Horticultural Convention.

[Special to The Times-Dispatch.] Winchester, Va., January 11.—The leading fruit growers of Winchester and Frederick County returned to-day from Lynchburg, where they have been attending the seventeenth annual convention of the Virginia Horticultural Society, and several of the horticulturists brought back with them the richest cream of the prizes offered in connection with the fruit show, which was declared to have been the largest and most complete in the history of the organization.

The apple men of Frederick County captured the majority of the cash, plate and ribbon prizes offered by the society and also by the Lynchburg Chamber of Commerce and numerous companies which manufacture orchard supplies. Thomas W. Steck, owner and manager of the Greenwood orchards, at Opequon, five miles south of Win-

chester, won more valuable prizes than any two persons making exhibits of fruit, and the greater number of the premiums he won were first prizes. Bond Brothers, William S. Hiett & Son and other large orchardists of this county won handsome prizes with their displays of apples.

Thomas W. Steck was the only fruit grower in the State who was singled out by President W. A. Pratt and Secretary Walter Whately for special mention in their annual reports. The president and the secretary made particular reference to the winning by Mr. Steck of a large solid silver cup, valued at \$750, which was the principal and most coveted prize offered at the American Land and Irrigation Exposition in New York recently for the best fifteen boxes of apples, five of any variety. Apple growers from every apple-producing State east of the Mississippi River competed for the prize, and the award, which was very closely contested, was made to Mr. Steck on quality. Professor H. E. Van Deman, said to be the greatest living expert on apples, judged the displays in New York and Lynchburg.

In addition to bringing home many cash prizes, Mr. Steck also won another solid silver cup, which was offered for the best and most attractively wrapped and packed box of apples.

BOWELS SLUGGISH, STOMACH SOUR, GASSY, UPSET? CASCARETS GREAT!

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is full of sour bile—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't indigestion—it's biliousness and constipation.

Try Cascarets; they immediately sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter from the bowels. Then your stomach trouble is ended. A Cascaret to-night straightens you out by morning.—Advertisement.

10 Cents. Never gripe or sicken.
